## Back Door to Alaska

Whitehorse has again taken its place in the midday sun, but it is not the gold which once lured prospectors and men to the Yukon.

By JACK PATERSON

IT STARTED on the train whirling toward White Horse, a two-day ride with one in midday and sun, and in midday, yet stopped upon the horizon of a new life in midday of war.

The last battle line with planes had been running in a week, and in a few days American troops, with a man with planes in midday and in midday, and in midday, yet stopped upon the horizon of a new life in midday of war.

The first Whitehorse hotel, the White Horse, is a new hotel, and in midday, yet stopped upon the horizon of a new life in midday of war.

## "Sweet Singers need Pretty Smiles— And yours, my pet, suffers from "Pink Tooth Brush"

"You're singing beautifully, but if you could show your teeth every day as often as you smile, you'd be a real beauty. Smile is a pink tooth brush, and it's the best way to keep your teeth white and your smile bright."

"Now, my dear, I'm not kidding. There's a lot to be said for a pretty smile and a white tooth brush. It's the best way to keep your teeth white and your smile bright."

# THOUSAND-PLANE RAIDS NEED THOUSANDS OF TIRES!

## TIRE INFORMATION WORTH REMEMBERING

If you are eligible for new tires choose Goodyear and LifeGuards. LifeGuards not only prevent blow-outs accidents . . . they also enable you to get the last mile out of your tires . . . in complete safety.

If you are not eligible for new tires sign up for the Goodyear Tire-Life Extension Plan . . . the only tire conservation plan giving you complete service to assure months, maybe a year extra use of your car.

If you do not know whether or not you are eligible for tires, see your local Goodyear dealer for full and authentic information.

• All over the world the planes of Freedom are carrying the fight to the enemy. Planes by the tens of thousands are needed for Victory.

To take off and land safely, these planes must have rubber tires. (It takes the rubber from sixty automobile tires to make one big tire for a bomber).

That's one of the reasons why you can't get new tires today . . . why present

tires must last longer than ever before! One major tire failure can put your car out of service until after the war.

Goodyear and Goodyear dealers have united in a common cause to keep the tires on Canada's cars rolling. Tires . . . only make . . . need the wear-protection of Goodyear's Tire-Life Extension Plan. It's important that you investigate the details of this plan . . . at once!
